

BOOK OF LISTS

PREPARE FOR THE FUTURE

BY BEN HUOT

"But they should always keep theology in mind, and the teachers of the humanities and philosophy should constantly encourage them and fill them with a love for theology." -- Ignatius Loyola in "To Father Claude Jay: On the Study of Theology"

There are lists of philosophy supplies as well as lists of of lists was put together for the future, which of 2 directions, or a 2: we might lose technology and because of our number of major face in the and revert back to more like the 19th, the 5th century AD; new source of propel us into a future other Sci Fi movies than Either way it is likely the will likely fade as people see problems and destroy and be out of touch with the natural world, or that we are so focused on survival that we don't have time to read or even have access to books like we do today. In between scenarios include many disasters and some very advanced technologies mixed with some very traditional ones. These lists will help provide a guide to the resources to make the best of the future, no matter what that entails.

related books and lists of disaster food and music. This books to help prepare people will likely go in one combination of the most our social structures overwhelming problems we modern world a civilization the 13th, or even or we might find a energy that will more like Star Trek or like the 20th century. major world belief traditions technology as the solution to our problems and destroy and be out of touch with the natural world, or that we are so focused on survival that we don't have time to read or even have access to books like we do today. In between scenarios include many disasters and some very advanced technologies mixed with some very traditional ones. These lists will help provide a guide to the resources to make the best of the future, no matter what that entails.
